WORKING IT OUT

WHAT IS A
VINYL REMOVER?

SAVE VALUABLE TIME

A Vinyl Remover strips your excess vinyl from any plotter and print'n cut job. Your Vinyl Remover can be mounted directly to worktables of wood and flatbed tables as RollsRoller with the use of our adaptor solutions.

Not only does your Vinyl Remover save up to 70 % of the stripping time – it also keeps your excess vinyl away from your cut out graphic while collecting all excess vinyl on a roll.

By using a Vinyl Remover you can be sure to avoid mistakes – you can even leave the machine in the middle of a job and answer your phone, without any damage to your cut out vinyl. Peeling vinyl has never been faster or easier!

MEDIA ROLLER

Width: 43, 85, 143 & 170 cm
The Mediaroller is now included with your vinylremover. Choose between 43, 85, 143 or 170 cm width.

WHAT IS YOUR SIZE?

VR43 CLASSIC
Width: 430mm

VR85 CLASSIC
Width: 850mm

VINYL REMOVER VR85
